TRENCHLESS AUSTRALASIA 2009

Registrations are now open for the unmissable trenchless event of 2009. Sponsorship and exhibition space for the event have sold at a record rate and a variety of distinguished speakers, many with years of broad industry experience and anecdotes, have already confirmed their attendance. Melbourne itself will be abuzz with footy fever, in the lead up to the AFL Grand Final, taking place on Saturday 26 September. The conference takes place at the end of the third and final week of the AFL finals. The finals are held on 18-20 September. The grand final parade will be held on Friday 25 September. Watching the city gearing up for what is indisputably Victoria's biggest sporting event is truly a sight to behold.

The only thing missing from the event is you, so please take the time to read your options in this brochure, then make sure you sign up as soon as possible.

INVITATION

I am delighted to extend to you an invitation to Trenchless Australasia 2009: the 8th National ASTT Conference and Exhibition.

The event takes place at Melbourne Park from September 20-22 2009. Delegates are guaranteed to take plenty away from the conference program that boasts a range of speakers covering projects, technology, the latest developments, policy and more.

Building on the successful and highly enjoyable event in Sydney last year, the great benefit of an event like this is the way it brings the entire trenchless industry together in one place; owners and utilities, contractors and suppliers are all able to network, co-operate for the future of the industry, and exchange the latest information.

This world-class exhibition will see companies from across Australia, New Zealand and many from the wider world, displaying the very latest in products and services. And this year, the exhibition is all in the one room!

It's not all work, and the outstanding social program provides plenty of opportunity to network with old and new colleagues in a more relaxed setting. It is often at these functions that true bonds are created.

Trenchless is the solution to many of the problems that Australia and New Zealand are currently facing; a tightening global credit market and economic slowdown means that every dollar counts and trenchless technology is no longer an expensive alternative, but instead offers many ways to do more with less.

Trenchless also reduces the carbon footprint of many infrastructure projects and has a major role to play in promoting sustainability. Ongoing water shortages also underline the importance of asset management to ensure that precious water isn't lost due to poorly maintained infrastructure.

For all of these reasons, Trenchless Technology should be front and centre for all utilities and asset owners. Whether you are new to the industry and need to learn more, an old-hand seeking to brush up and find out the latest developments, or a company that has a product or service to supply, you need to attend Trenchless Australasia 2009.

Trevor Gosatti, ASTT Chairman

VENUE

The event will be held at Melbourne Park Function Centre, close to Melbourne's city centre. Offering first-class facilities, the event venue will make full use of its spectacular views of the city skyline. The function centre is ideally located for easy transport accessibility, sitting next-door to two tram stops (route 70), a taxi rank and two pedestrian bridges linking Melbourne Park with the Melbourne Cricket Ground. There is ample accommodation available at the nearby Hilton on the Park and Mantra on Jolimont, which is just a short ten minute walk from Melbourne Park.

ABOUT TRENCHLESS TECHNOLOGY

Trenchless Technology is the science of installing, repairing or renewing underground pipes, ducts and cables using techniques that minimise or eliminate the need for excavation.

The benefits of Trenchless Technology are many: the potential to install, replace or renovate an underground utility service at the least cost; minimising damage to highways and disruption to traffic; minimising any adverse impact on the environment; and maximising the safety aspects for both the worker and the public.

ABOUT THE ASTT

The Australasian Society for Trenchless Technology (ASTT) is a non-profit society and membership is open to all who are concerned with the provision of gas, water, sewerage, drainage, roads, telecommunications and electrical services. The ASTT is part of the International Society for Trenchless Technology (ISTT), an affiliation of societies in more than 20 countries worldwide. The principal aims of the ASTT are:

- To advance the science and practice of Trenchless Technology for the public benefit;
- To provide a forum in Australia and New Zealand for the interchange of knowledge and skills in the field of Trenchless Technology;
- To encourage the interchange of specialist knowledge and practices in Trenchless Technology within Australia, New Zealand and overseas.

ABOUT THE ORGANISERS.

Great Southern Press is the official publisher for the ASTT and produces a range of products and services related to the trenchless industry, namely *Trenchless Australasia* magazine, the *Australasian Trenchless Directory*, *Trenchless International* and a series of training seminars.

EXHIBITORS AND SPONSORS

Melbourne Park will become a trenchless hub as hundreds of delegates and trade visitors from Australia, New Zealand and around the world descend on Melbourne for this event. With the cream of the industry all gathered in the one place, this event promises to be one of the biggest and most successful in history. If you are a company active in the industry, you simply cannot afford to miss this.

BOOTCAMP

Sunday 20 September, 2.00pm - 4.00pm
LaTrobe Room, Hilton Hotel

This special session is free for all delegates and is particularly aimed at new attendees to give them a taste of trenchless before diving into the full program. It's also a great way to brush up on the latest information or find out more about areas that you are not so familiar with. This year we are privileged to have two of the most knowledgeable presenters in the trenchless world, Dr Dec Downey and Dr Sam Ariaratnam, to present this training.

TRAINING

Wednesday 23 September

The conference will be followed by four optional training modules, one stream will focus on new installations with modules on HDD and pipe bursting, the other stream will focus on asset management, with one module on condition assessment and one on pressure pipe rehabilitation. These additional sessions will also be presented by Dr Dec Downey and Dr Sam Ariaratnam.

OLD PROBLEMS, NEW SOLUTIONS

The contribution of Trenchless Technology to 21st Century pipeline construction and rehabilitation.

DR DEC DOWNEY
Principal,
Jason Consultants

Many of today's problems can be attributed as much to the historic choices of materials and methodology available at the time of construction as to time-related deterioration and shortcomings in construction supervision. With the clarity of hindsight we can identify some of our past mistakes and build on this hard earned understanding to do better for our communities. Trenchless methods facilitate construction with less joints or better made joints, with potentially more durable materials and with less reliance on hard to supervise skills in the darker corners of the underground. The practices of microtunnelling, pipe ramming and HDD have improved substantially. Modern pipe materials properly installed by these methods must surely offer sustainable solutions to the challenge.

We have an increasing tool box of technologies to address ageing pipelines and provide lasting solutions to these problems. While condition assessment and service connection reinstatement remain challenging many of the rehabilitation techniques we use have been tried and tested over a considerable length of time and our retrospective evaluations can underpin service life predictions. New techniques continue to evolve along with our understanding of the pipe-soil interface.

“The conference continues to attract speakers and delegates at the forefront of the industry in Australia.”

LESSONS FROM SINGAPORE

TAN THAI PIN,
Director,
Water Reclamation (Network) Department, PUB, Singapore

Mr Tan's professional experience covers a broad spectrum of water and wastewater management. This includes the development of master plans, policies and also engineering works covering planning, design, construction, operation and maintenance of drainage, sewerage and water reclamation infrastructures. He has been involved in the use of Trenchless Technology for the installation and rehabilitation of sewers since the early 1990s.

Mr Tan said "It's always a challenge managing Singapore's water supply due to our limited resources especially in our land area which is required for the storage of the rainwater. We therefore have to adopt an integrated and long term approach in our water resource planning.

"PUB has been using trenchless technologies for implementation of sewerage network projects to serve new development and for the implementation of sewer rehabilitation plays. These technologies have enabled us to carry out these projects in a cost effective manner and with minimal disruptions to the public."

TRENCHLESS AND SUSTAINABILITY

DR SAMUEL ARIARATNAM
Professor,
School of Engineering,
Arizona State University

Dr Ariaratnam is currently the Vice Chairman of the ISTT, as well as Professor at the School of Engineering at Arizona State University. He has been a keynote speaker at many trenchless events all over the globe. Dr Ariaratnam's presentation promises to be a highlight.

Dr Ariaratnam is one of the world's leading trenchless academics, with research including "sustainable urban underground infrastructure systems". This keynote presentation will present expert knowledge of Trenchless Technology and sustainability. In addition, Dr Ariaratnam will be leading two training modules; one in the field of HDD and the other in pipe bursting, on Wednesday 23 September.

He focuses on using optimisation techniques and performance models to evaluate and develop improved construction strategies/methods for installing, assessing, rehabilitating, and repairing underground infrastructure systems including sewer/water systems, fibre-optic cables, pipelines, electrical lines, and gas lines.

BUILDING A FUTURE FROM WATER

ROSS YOUNG,
Executive Director,
Water Services Association of Australia

Mr Young commenced as the Executive Director of the Water Services Association of Australia (WSAA) in 2004. WSAA is the peak body for the urban water industry and its members provide water services to 16 million Australians – 80 per cent of the population.

Mr Young has extensive experience in urban water management at a senior level, having held a number of key executive positions with Melbourne Water for over a decade. During his time at WSAA, he has raised the profile of the Australian urban water industry and has established himself as the national spokesperson on urban water issues.

DOLLARS AND SENSE OF NO-DIG

The economics of Trenchless Technology and the economic drivers for infrastructure construction.

JOHN ROSKAM
Executive Director,
IPA

Mr Roskam is the Executive Director of the Institute of Public Affairs. Before joining the IPA, he was the Executive Director of The Menzies Research Centre in Canberra. He has also held positions as Chief of Staff to Dr David Kemp, the Federal Minister for Employment, Education, Training and Youth Affairs, as Senior Advisor to Don Hayward, Victorian Minister for Education and as Manager of Government and Corporate Affairs for Rio Tinto.

“ Warm, friendly environment for meeting people for the first time. Social program was good. ”

THE GREAT TRENCHLESS GOLF CHALLENGE OF 2009

Sunday 20 September 9.30am – 3.30pm

\$44 per player. *Not included in full registration fee.*

Take a trip to the lush and scenic Ivanhoe Golf Course for a leisurely or active game of 18 holes. Both serious golfers and weekend whackers welcome. Lunch will be available to purchase from the counter of the golf courses cafe after the ninth hole, and a drinks cart at cost will be on hand. Experience Melbourne's beautiful colours and flourishing spring weather in a day of fun and entertainment. A series of prizes will be awarded including outright winner, longest drive and nearest the pin.

Appropriate golfing attire and shoes need to be worn. Motorised golf carts are available to hire for \$35.00 per cart, but these are subject to availability. Limited golf club hire is also available for \$12.00 for a half set and \$25.00 for a full set. Please indicate on the registration form if you would like to reserve a golf cart or hire clubs.

EXHIBITION OPENING COCKTAIL PARTY

Sunday 20 September 5.00pm – 7.00pm

\$88 or complimentary with full registration

The event will be officially opened on Sunday evening as all delegates and exhibitors gather together in the exhibition area to enjoy canapés and a range of drinks. Meet old friends and make some new ones as the event officially gets underway.

RIVER CRUISE

sponsored by 

Monday 21 September 7.00pm – 11.00pm

\$132 or complimentary with full registration

One of the highlights of last year's conference was the spirited and scenic boat cruise. This year we will be departing from the Docklands for an enjoyable evening of drinks and a delicious buffet dinner. As last year, the event is dress up and this year's cruise will be gangster-themed so scratch up your best Scarface. From Bugsy to Capone, all guys and dolls are in for a spectacular and decadent night of fun. And Melbourne's recent brush with Underbelly should attract another colourful cast of costumes and characters to the event.

GALA DINNER – MCG sponsored by

Tuesday 22 September 7.00pm – 12.00 midnight

\$154 or complimentary with full registration

This prestigious occasion will be the trenchless Industry's feature event for 2009. The glamorous evening will include an awards ceremony, top-class entertainment and a sumptuous three course meal. It is a very exciting time as this week will be the lead up to the AFL grand final and having the MCG as the venue will only add more celebratory spirit and dynamism to the event. This highly enjoyable and lively night is not to be missed and provides a great opportunity to socialise before having to say goodbye on Wednesday.

Melbourne is a dynamic, multicultural and versatile city with virtually endless activities and entertainment on offer. Whether you are looking for an animated, energetic activity in a bustling environment or a quieter, more tranquil place to unwind, there is no chance of boredom in this town that has something to suit everyone's tastes.

Shopping

Melbourne's many shopping options are varied and colourful; from hidden laneways to large outlets to trendy designer boutiques and arcades. There are also a number of unique fruit, food and merchandise markets throughout the city, many of which boast an incomparable experience of Melbourne's multicultural face. If you prefer to be shown around, there are fun and informative guided walks that point out different shopping points. For discounted designer stores there is Spencer DFO, which is found at Southern

Cross train station. If you are looking for boutique stores and high end designer stores, take a walk down Chapel Street in Prahran. Bourke Street is also popular for its big department stores (MYER and David Jones) and other clothing stores.

Queen Victoria Market

Queen Victoria Market is Victoria's premier open-air market. Located just outside the city centre, the market has everything to offer; market stalls, food, wine, regular cultural activities and much more. Closed on Mondays and Wednesdays, there is a night market every Wednesday evening throughout the summer.

Museum

Enrich your understanding and appreciation of Victoria's culture, history and natural environment by visiting the Melbourne Museum, located in the picturesque Carlton Gardens. Museum highlights include Bunjilaka – the Aboriginal Cultural Centre and the IMAX Theatre. Opening hours are from 10.00am until 5.00pm daily.

Melbourne Aquarium

The Melbourne Aquarium houses over 10,000 aquatic creatures and is Australia's only Southern Ocean Aquarium, making it a must see. The Aquarium is open 9.30am until 6.00pm daily.

“ Catching up with old friends and making a few more. ”

Crown Casino

Filled with a wide variety of entertainment options, from shopping to gaming machines to different restaurants, you will find ample diversion to keep you busy. You may also want to take a walk along the swanky Southbank district, which is just outside of the casino, lining the Yarra river.

Botanic Gardens

Take a walk and look at over 10,000 species and 50,000 individual plants or enjoy relaxing splendour in the grass reading a book. The gardens are recognised as one of the world's finest botanical arrays, with 38 hectares to explore. Open daily from 7.30am until 6.00pm.

Eureka Tower

The tower is new to Melbourne and is currently the tallest apartment building in the world. The tower also has a look out to the city that is open daily from 10.00am until 10.00pm, with last entry at 9.30pm.

Docklands

The Docklands is one of Melbourne's new up and coming entertainment districts, with cosmopolitan restaurants boasting fine cuisine, and a range of retail stores.

Football

It is very exciting at the moment as Trenchless Australasia 2009 will be running the week leading up to the AFL Grand Final. Preliminary finals will be played on the weekend of 19 and 20 September and the Grand Final will be held on 26 September. Tickets to the matches leading up to the grand final will be on sale but they sell out fast so make sure to book early.

Day Trips

Great Ocean Road

If you are interested in a day tour, the Great Ocean road is a splendid option. Enjoy breath taking views while travelling down one of Melbourne's best known tourist spots. You may even want to see the Twelve Apostles. The Great Ocean road is one hour out of Melbourne so you will need a hire car or book a day tour, which can be found on www.melbournetours.com.au/

Yarra Valley Wineries

Another great day trip would be to our Yarra Valley wineries. Enjoy a day of wine tasting and socialising, as well as a gourmet lunch. The Yarra Valley is one hour out of Melbourne so you will need to hire a car or book a day tour, which can be found on www.yarravalleywinerytours.com.au/

Mantra on Jolimont and Hilton on the Park are situated 30 minutes by car from Tullamarine Airport, and approximately a ten minute walk from Melbourne's CBD an Melbourne Park Function Centre.

Both hotels have easy access to public transport, Jolimont train station and trams that head into the CBD.

ACCOMMODATION INFORMATION

The headquarter hotels are the Mantra on Jolimont and Hilton on the Park. Special conference rates have been secured and bookings need to be made directly with the hotels in question.

MANTRA ON JOLIMONT

131 Jolimont Road
East Melbourne, VIC 3002

Studio Room	One Bedroom Apartment
\$170	\$200

Bedding may be either one queen bed or 2x single beds.

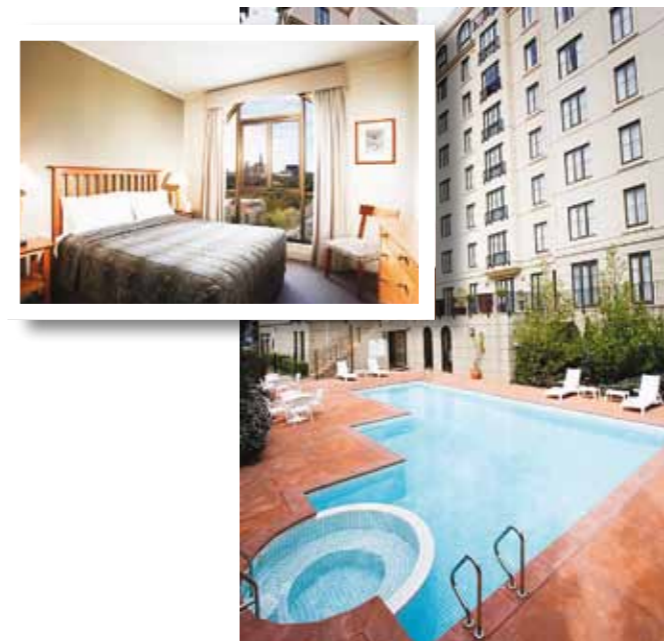

Room Facilities

- 24-hour reception
- Restaurant
- Carpark (fee applies)
- Same day laundry service
- Baby-sitting service (fee applies)
- Pool and gymnasium
- Daily housekeeping
- Fully equipped kitchens in one bedroom apartments
- Laundry with washing machine, dryer, iron and ironing board
- Individually controlled air-conditioning
- Colour television and in-house movies
- AM/FM radio alarm clock
- Hair Dryer

Check in - 2.00pm

Check out - 10.00am

To make a booking, please call (03) 9940 2100 and quote GSP.

HILTON ON THE PARK

192 Wellington Parade
East Melbourne, VIC 3002

King Hilton Guest Room
\$265

Room Facilities

- Air Conditioning
- Alarm Radio
- Non-smoking
- Coffee Maker
- Refrigerator
- Hair Dryer
- Internet access in quest room
- Iron
- Ironing Board
- Mini Bar
- Fitness room
- Pool
- Carpark (fee applies)

Check in - 2.00pm

Check out - 11.00am

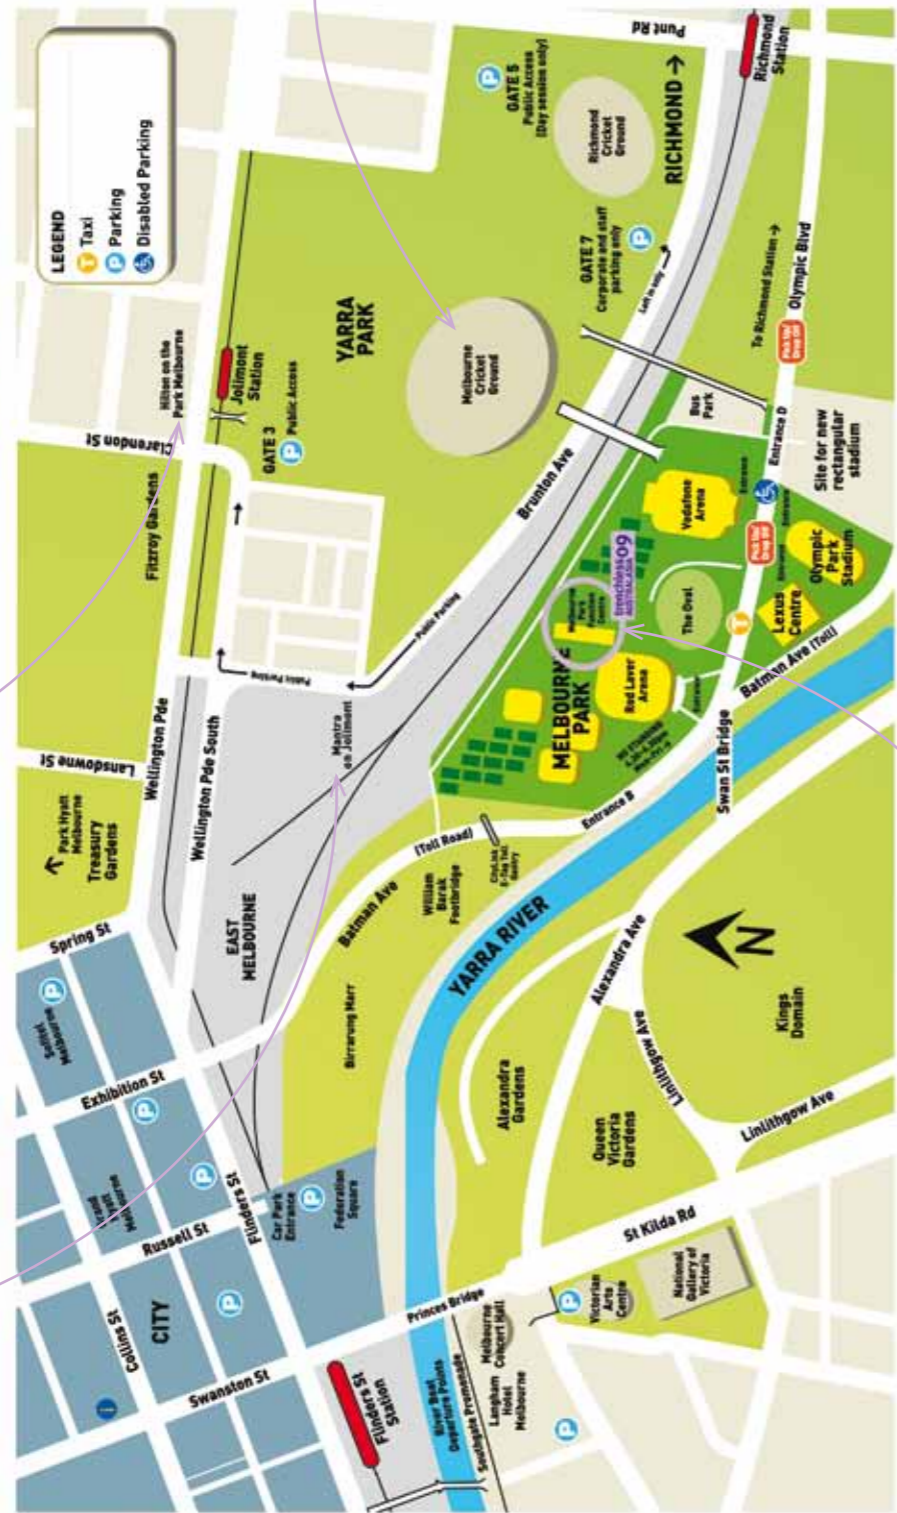

To make a booking, please call (03) 9412 3144 and quote GGSPA.

IMPORTANT:
Please make sure you book your accommodation early to avoid disappointment. Due to the Grand Final, accommodation at these venues will sell out and cannot be guaranteed if booked less than 30 days before.

In order to keep costs down, breakfast is not included in this package. Guests can purchase a full buffet breakfast in the restaurant or order room service. Welcome coffees will be served at Melbourne Park at the beginning of each day. Space in these hotels is limited and they are the hotels in walking distance of the venue, so delegates are strongly advised to reserve their accommodation as soon as possible.

trenchless09 AUSTRALASIA

GALA DINNER

HILTON ON THE PARK MELBOURNE

MANTRA ON JOLIMONT

HOW TO GET THERE

MELBOURNE PARK FUNCTION CENTRE

Prices*	Early Bird register by June 19 2009	Regular
Full registration (ASTT member)	\$1,150	\$1,350
Full registration (non-ASTT member)	\$1,350	\$1,590
Speaker registration	\$935	\$1,100
Student registration	\$680	\$800
One-day delegate registration		\$650
Partner registration		\$360
Dinner (table 10)		\$1,386

Individual events:	
Dinner	\$154
Exhibition opening	\$88
Golf	\$44
River cruise	\$132

Training modules:	One	Two
Discount *	\$385	\$594
Standard	\$440	\$660

These events (except for the golf) are complimentary with most registrations. If you are choosing an option that includes these events, you do not need to pay for them, but please still tick the boxes over the page of the events you plan to attend.

* ASTT member and/or conference delegate.

These modules are separate to the rest of the conference and you will need to enroll specifically. For your convenience you can enroll on the same form over the page.

Full registration

This includes attendance to all conference and exhibition events, morning and afternoon teas and lunches, the exhibition opening, river cruise and gala dinner. It does not include accommodation or the golf day.

Day delegate registration

Registration for one day includes full attendance at conference and exhibition including morning and afternoon teas and lunch, but does not include any other social functions.

Member/non-member

Member rates are available to all individual members of the ASTT and all delegates employed by corporate members of the ASTT registering under the company's name. Delegates and companies may join the ASTT with this form at a special discounted rate and take advantage of the member registration rates. Simply select the option over the page and add the discounted membership rate to the total.

Partner registration

For partners of full delegates, this option includes conference social functions including exhibition opening, river cruise and gala dinner. Golf must be selected and paid for additionally.

Prices for ASTT membership for one year:

ASTT Membership	Corporate	Individual
Australia	\$594	\$148
New Zealand	\$680	\$180

Late registrations

All exhibition and most sponsorship options sold out in record time. We will attempt to accommodate as many delegates as possible, but there are some space limits so all delegates are advised to register early to avoid disappointment.

Speaker registration

Available to confirmed speakers only paying before 19 June (see website for dates). Includes all benefits of full registration.

Student registration

Available to full-time enrolled students of tertiary institutions, proof must be provided. Student registration does not include tickets to river cruise or gala dinner.

Notice to exhibitors

If you are exhibiting, you will receive complimentary delegate registrations as well as discounted rates for additional delegates. Please fill out the exhibitor's manual when it is sent to you rather than using this form. If you have any questions, please contact Great Southern Press on 03 9248 5173.

* All prices are in Australian dollars and include 10 per cent GST where applicable.
